Dear Judge Shumate:

I want to express my gratitude to you for having the commitment to handle the case of Warren Jeffs.

Polygamy and the abuse to women and children is far more wide spread than anyone knows. It is a secret society in which the women are in fear of telling the truth even to themselves. I also spent 20 years trapped in a life which I hated and had no escape. My 5 children have paid a high price and these men should have to face their crimes against others.

I hope you will give Warren Jeffs the maximum that you can, and that he will feel the complete helplessness, unhappiness and hopelessness that he has put on so many in his time of power.

Thank you for your service to the community.

Brenda
